## Projects

**herAlly – Women Safety & Anonymous Reporting Platform**
github.com/Nitishhpandey/herally

- Developed a socially impactful web platform that allows women to report harassment, abuse, or safety incidents anonymously and securely, without revealing their identity.
- Implemented core features including anonymous case reporting, unique tracking IDs, secure real-time chat between users and verified NGOs, and controlled information sharing.
- Built using the **MERN stack** (MongoDB, Express.js, React.js, Node.js) with Tailwind CSS for responsive UI, focusing on privacy-first design and user experience.
- Ensured NGO verification workflows and real-time communication to connect victims with support organizations for counseling, legal guidance, and follow-up.
